Congratulations to all winners, especially to OH2DG for winning Multiband for the second time, to I2FAK for winning 2m, to UA3PTW for winning 70 & 23cm, to OK1KIR for winning 13, 9 & 1.2cm, and to SA6BUN (DL1YMK) for winning 6 & 3cm!

Much more entries on 2m and 70cm this time, so the contest will continue on these bands in 2020. 13cm suffered from lower activity, due to QRM problems and legal restrictions.

Activity on 23cm and 3cm is on highest level as usual, max. QSO figures on 23cm a bit lower though. Activity and max. QSO figures on 6cm and 9cm were good too.

Overall entries in 2019 were 139 vs. 129 in 2018. Many thanks also to the little pistols for taking part and sending entries!

Certificates for the first 5 places will ship soon. In case you want a certificate for any of the other places, please contact us by email at DUBUS@t-online.de.

73 and good echoes! Joe, DL8HCZ/CT1HZE
